

Hi yourself!

Yes, I received your samples, and, as always, it takes me awhile to get around to any reading.... HOWEVER, I did already read your Frasier script and thought, no kidding, it was fantastic!! You had exact instincts about how they speak, their mannerisms and I loved the story, as well. I think you have terrific potential for that world and that you should be very successful.

The above quote is from an email from Marsha Posner Williams to me regarding my writing samples I sent her. Marsha was as a producer for the sitcom's; Soap, Benson, Night Court and the Golden Girls under the production company Carsey-Warner.
